

CAMBRIDGE GARDENS

Neighborhood Watch Alert – April 5, 2019

<https://www.facebook.com/groups/CambridgeGardens>

In the early morning hours of Wednesday April 3, 2019, a group of individuals came through our Cambridge Gardens neighborhood, as well as several surrounding neighborhoods, looking for unlocked vehicles. It seems that they only hit unlocked vehicles. Most victims don't even know that they were hit.

New Castle County Police were contacted and investigated, and they have made routine checks of our neighborhood since the incident.

Be sure to lock your doors!

A video is available on the Cambridge Gardens Community Facebook Page.

If you are not yet subscribed to the Cambridge Gardens Community Facebook page, you are encouraged to do so.

If you see anything suspicious, report it. Call 911 in an emergency.

Alert your neighbors by reporting suspicious activity to the Facebook Community Page.

Several neighbors are starting a Neighborhood Watch Program in our neighborhood. A neighborhood meeting will be announced shortly, as with all announcements, on our Facebook Community Page. Please subscribe to keep up with announcements and plan to attend the meeting, once announced.

One priority of the Neighborhood Watch Program is notification alerts to all neighbors. The '**Neighbors by Ring**' app (<https://shop.ring.com/pages/neighbors>) is a good system. It is free and download for Android and iPhone. Registration is free, and you don't need a Ring device to use. Under Settings, you can select the area that you want notifications from, what type of notifications, and the time you want notifications delivered. Everyone is encouraged to download, and at least try this app.

If you have any suggestions, please post on our Community Facebook page.
